

WHO WE ARE: Founded in 1974, CAT is an educational outreach program at The City University of New York (CUNY), and in partnership with CUNY's School of Professional Studies, offers the nation's first M.A. in Applied Theatre – using theatre to facilitate, educate and activate.

WHAT WE DO: Theatre cultivates a unique skill set that is indispensable for the 21st Century – primarily communication, collaboration, critical thinking and creativity. CAT enriches the lives of our participants through a pedagogy which combines educational drama strategies with research-based educational theories and practices to create participant-centered, interactive drama experiences. The needs, strengths and learning styles of participants inform the actual content of workshops. CAT offers a diverse array of programs for traditional and non-traditional populations.

After-school Adolescent Literacy

With over **four decades** of dedicated school and community partnerships, youth and professional development programs, and our award-winning Youth Theatre, CAT has reached over a million students, educators, parents, community members and teaching artists in New York City, across the nation and around the world.

CAT is a 501(c) 3 Nonprofit Organization.

"I believe that this program should be an integral part of the ELA curriculum. It helps to bring concepts that may be abstract in nature to a more tangible concept that students can relate to. I believe it impacts their social-emotional as well as academic growth."

Literacy Teacher

"I come to CAT for the chance to create real, powerful, raw theater for a purpose - a chance I couldn't get anywhere else in NYC."

Youth Theatre Member

"CAT helped our students think about the economic consequences of NOT going to college."

High School Teacher

"I am positive that this program has helped each and every one of my students become better readers, better writers, better speakers, better communicators, and more well-rounded individuals."

THEATRE FOR CHANGE

"So many of the activities encouraged teamwork and positive peer interactions... the interplay between the students was great to see. I think they really learned how to work together and be tolerant."
